A BET ON WHETHER A TEAM WINS OR LOSES BY THE NUMBER OF HANDICAP POINTS ASSIGNED TO THE FAVOURED TEAM

Puck Line is another popular market. It's a bet on whether a team wins or loses by a certain number of goals, based on a handicap assigned to the favourite team.

FAVOURITE

UNDERDOG

Voiceover:

Puck Line helps even the 'playing field' when it comes to betting. Since the favourite is expected to win, they need to win by more than a certain amount. Since the underdog is expected to lose, a bet on them could still win if they don't lose by too much.

OVER UNDER
BET ON WHETHER THE COMBINED TOTAL SCORE OF A GAME GOES OVER OR UNDER A CERTAIN NUMBER

Voiceover:

Over/Under markets are a bet on whether the combined total score of a game goes over or under a certain number. With PROLINE+, you can bet on this and many other markets at different times in the game. As in, what's the Over/Under going to be after the 2nd period?
